Swift Execution That House Sought To Carry Out Not Approved

UPPER BODY DECLINES TO ADOPT RESOLUTION

It May Clean the Slate For Governor By Refusing Confirmation

Something is going to happen to the food commission soon. It is certain that it will be reorganized and put to nork on a new basis, but whether there is to be a complete reorganization with an entirely new personnel, or whether only a part of the present membership will be removed in the end probably will be teft to Governor-to-be McCar-This is about all that may be definitely about the food commisnow, for the legislature after jab ag at questions concerning the comspecial session has been in progress and eciving a report from the comand a dessertation from the Gov rnor in a personally delivered message

Apparently the split is not so much doing it. Though different course, being persued by the two houses it has an if both will lead to the same The house set out yesterday to ill off the food commission out of hand seemed too harsh to the senat there it is understood what the house fily with an anesthetic.

The thing came to a head in the oute yesterday when Representative airin Andrews' resolution, which call to the resignations of the member the commission, came up. This resolu be coals and calls the members inert nethicient and no good generally, was attractioned the opening day of the session and was deferred twice to await a report from the commission and are expression of views from the Governor An effort to beat out the resolution sched by Representative T. H. Pet rie in the shape of a motion to table was quickly defeated, and when it came up for vote it was adopted by a tate of twenty-two to eight.

The action was not taken without considerable discussion. Representa-

ve Andrews spoke warmly for the persure, charging that people in Hawaii schully are starving, due to the failure of the food commission to perform the inties assigned to it. What the com-mission has done, he asserted, has had the effect of paralyzing the fish in fustry and he said the body has been well on the way to paralyze the rice in-fustry as well. Bice growers have been so much discouraged by the comseen so much discourages of

tre planting the cereal.

Law is Adequate

The representative did not unince sords. He was emphatic in saying it has the members of the commission. ie was attacking, not the law that ere ited the body. The law he spid, is ade uste. It can save people from star but he averred the law is not so long as it is being ad The expressed the view that a proper food commission should devote the entire time to the work or resign to was not as individuals that he wish to attack the commission, he said, but e asserted as a body they are a tota

Bepresentatives Petric, C. H. Cooke Joseph Kalana, J. J. Walsh, C. H Wilcox, G. P. Wilder, D. M. Kupiher and C. N. Marques lined up against the resolution. The contention was offered that as resignations of the members of the commission would be placed in the wands of Governor McCarthy when h takes office, the whole matter should be left to him. Representative Walsh of Maui strongly defended the com-mission and asserted it had done much

It has been said that Representative ews' measures have hard sledding when they get into the senate, irrespective of whatever merit they may possees in themselves. Members of the upper house said yesterday that the upper house said yesterday that the thered by Representative Andrews had nothing whatever to do with the lacing it received in the upper house when it presented there. The senators tabled the resolution with a considerable bang after they had talked about it a while, Benators Give Views

Senator Robert Shingle opened regainst it mildly. It wasn't quite ac ording to Hoyle, he insisted, sayin, impinged upon the prerogniives of the Governor, and he expressed the balled also that it interfered with the cuttes of the executive. Senator R H. Makekau pointed out to his col engues that the house had acted or report from the commission which vever had received consideration in the senate. He asked why the senate hould be called upon to demand the redgrations of the commissioners when it had never had any report from them, and when they had not been af forded as opportunity of presenting

Senator S. P. Corres nonsidered that the the wording of the resolution in he part which requests "the resignaommissioners were charged with outright dishonesty and be asserted the rew Covernor and the matter should be be left to him

MANOA WILL CATCH

ive Days Lost In Rescuing Disabled Steamer To Be Made Up In Round Trip Voyage

In one round trip voyage from San Francisco it is planned that the Matson deamer Manoa will make up the five lavs she lost when she went to the

If the Munoa reaches port as is exill have made up two days of the live she is off schedule. These two lays were saved in San Francisco and he plan is to have her save the other hree here so she can depart for San Francisco next Tuesday, only a few hours later than she would have if she steamer.

According to the plans of the Maton company she will leave here Satrday for Kahului, one day sooner than sual, and come back on Monday mornng. Monday, Monday night and Tueslay extra gangs will be used in com-dileting her cargo so she can sail for an Francisco at four o'clock from great tourist attraction federal do-Pier 19. This will be about four hours mains. ater than her usual sailing hour, which visit of Miss Pelts she can easily make up on the return

Eighty five passengers are booked to ave on the Manon for San Francisco.

SHIPPING BOARD TO

After June 1 the government will no onger retain its control of commercial hips through the United States Shiping Boards because of fear that Amerthe news which A. Lewis, Jr., brought ack to Honolulu, when he returned on he Tenyo Maru on Monday from a mainland trip.

He reports the street of the United States into the war has held an attention of the states into the war has held an attention of the states into the war has held an attention of the states into the war has held an attention of the states into the war has held an attention of the states into the war has held an attention of the states into the war has held an attention of the states into the war has held an attention of the states into the war has held an attention of the states into the war has held an attention of the states into the war has held an attention of the states into the war has held an attention of the states in th

He reports that the many vessels ack to the various American steam hip companies, both on the Atlantic

The explanation offered for the pro osed change is that the American oreign trading facilities were rapidly eing disorganized, which had taken any years to establish. Representa ives of all the steamship companies re now expected to be sent to Washagton in an effort to get as many of he vessels turned back as is possible or their companies.

One result of the intended change al endy expected is that the American Iawaiian Steamship Company and the uekenbach Company will restore their an Francisco-Atlantic services.

When the vote was taken on the nestion of tabling the resolution, no nator voted against it. robable Outcome

Some time ago Speaker of the House I. I. Holstein said that a painless and ood commission would be for the sen te to neglect to confirm the member f the commission. The belief has een expressed that this is what will appen when the long list of appoint nents the Governor has made since he 1917 session, sent in by the ex eutive yesterday, comes up for con deration. The list had not been re eived by the senate when the resolu on was under discussion and it was iot acted upon when it was received It has been shown that the upper louse is disposed to extend every aid ected against the food commission, it s thought that the Governor probably vill be given the freest hand in the patter if he can approach the situa on when he takes office with an en irely clean slate without the neces ity of going through anything that night smack of unpleasantness like ac epting resignations. It is accepted hat the food commissioners in the orinary course of events will submit heir resignations to the new Governor t is known that this will thrust upon he executive an arduous task in the hape of a personal investigation of Il the affairs of the commission and his means delay. eaves Way Open

For these reasons it is said the sente will clean the slate for the Govrnor pleasantly by withholding con irmation of the appointments of the 'ood commissioners, thus automatically nding the present body's existence and leaving the way open for the new lovernor to name the same men or thers, as he may elect.

Even before the resolution came up n the house yesterday Governor Me Carthy told Representative Petric that he did not favor the resolution. He said yesterday he had received assurances that when he took office the resignations of members of the com mission would be placed in his bands and he said he had meant personally to inquire into the affairs and acts of the commission with an open mind and act upon what he found. If the sen the language of the resolution was ate fails to confirm the appointments larsh, insulting, in fact. He referred such an inquiry, of course, will not be

Exactly what will happen will not lon of said commissioners and the are be known until the secute disposes of the whole list of some two hundred To said the inference was that the and thirty appointments given in the document the tinyernor sept in yester resolves had no knowledge that the ent food commission of the food commission were the food commission were the food commission were the food commission of the day. If the senate confirms the pres free to name a new food commission unhampered

Kilauea National UP WITH SCHEDULE Park Project Up To Secretary Lane

Visit of Interior Department Head Will Be Urged To Take Action In Matter After He Makes Visit To the Volcano

Kilsuea National Park may be added escue of a disabled vessel from this following the mint of official government parks VOLCANO STABLES OF HILO following the visit to Hawki next mouth of Secretary of the Interior Franklin K. Lane and Assistant Secreected on Friday morning she already tray Bradley, the Hawaii Promotion ill have made up two days of the Committee and the Trail and Mountain Club having already taken steps to collect data and lay it before the officials and to delegate members to accompany them to the volcano.

The Kilauen National Park project

has had the favorable attention of the interior department and it has also been the subject of congressional committee discussion, but so far no action has been taken by congress to appropriate money to carry the pre-liminary plans to the stage where a bill can be introduced in congress 7.4次多方面

the promotion committee, considerable correspondence was carried on by him with the interior department, including the secretary and the heads of the bureau of national parks of the department urging the completion of the and all three teams went to it in real ormal visit here two years ago of Miss Edna Peltz, then secretary to E. J. and were the first to get the inner Yard of the national parks bureau, who tube to the referee and start on the made a lengthy report to her chief concerning her visits to Haleakala and game they experienced trouble in re Kilauca. At that time Miss Peltz placing the casing and lost severa' undertook the trip to Hawaii partly as formation on the park situation to lay before Mr. Yard in order that he might were the first to hold up the more intelligently more intelligently more intelligently more intelligently more than the might were the first to hold up the state of the latter to hold up the more intelligently move the project along. The promotion committee greatly assisted Miss Peltz in her trips to he two volcano areas, valuable assist-

the war has held up the park project cree's gauge it was found that they temporarily, but the visit of Secretary were five pounds under the required hich have been operated under the lane is expected to pave the way for irect control of the operating division bringing both volcano areas into the f the shipping board are to be turned national park system. There are, still a number of land areas that are to be procured from private owners, but the territorial government is working on this plan and it is expected that easements on such lands will be ob-

> L. A. Thurston, who was the main spring in the organization of the Volcano Research Association and largely responsible for bringing scientists here to make constant observations at Kilauea, and who also was largely nstrumental in carrying on the plan for a national park to include Kilauwa on Hawaii, and Haleakala, on Maul, is now on the mainland, and the local organizations regret that he will not be here to day the Kilauca Park matter

before Mr. Lane. The Hawaii Promotion Committee will discuss the park matter at its meeting today in connection with the proposed visit of Mr. Lane and will monu. take the plan up with him as soon after his arrival as the secretary may fective method of disposing of the find time. The Trail and Mountain week and in all probability J. A. Balch, Yonaga. W. F. Frear and W. R. Castle will be named to get the data together on behalf of the Club. A. H. Ford of this club said yesterday that the club will also ask Rev. W. D. Westervelt, of the Volcano Research Association, to participate with the Trail and Mountain Club.

Military Guard When the Kilauea National Park is YALE FLINGER TOO actually officially designated as a nao the new Governor and in view of tional park it will come under the national parks at Washington, and in all probability, aside from the local civilian administration of the park, representing this bureau, a detachment of United States military forces may be permanently maintained as a patrol regulations as to how people can make use of this public domain.

On Tuesday, when the eighth week of the Pacific Coast and introduced by Referee K. C. Bryan League opened, Walter walloped Bill and yesterday Bill returned the compliment and walloped Walter. It's a

All this goes to say that the Senators efcated the Bees in yesterday's game a Sacramento. It was a close fight, loser than that of the day before. Yeserday's score-Sacramento 4, Salt

At Los Angeles, the Seals repeated u the Angels, winning the second game of the present series in a close fight lso; score-San Francisco 4, Los Au-

Playing at Oakland, the Oaks turned he tables on the Tigers, making the eries even, one-all. It was the closest ame of the day; score-Oakland 3, Vernon 2.

Senators Now Second

Bill Rodgers' Senators sent up yes erday from fourth to second place, being now but three and a half games behind the Salt Lake Bees. The Angels nd Tigers are tied at Station No. 3, only .010 back of Sacrameuto. The laks are, in their turn, but half a game behind the Angels and Tigers, while he Seals are again but half a game oack of the Oaks, although in the cellar The Pacific Coast teams are running o close in the standings that a week alone may see the cellar club at the head of the list. There has been noth ng like it in many years. The teams ere certainly very well balanced and

Australians Write In Regard To Fanny Durack Protest

sland Continent Swimming Officials Sending Letters They Believe Will Settle Everything

SAN FRANCISCO, May 23-(Assointed Press)-The Australian Swimming Association has written a full explanation of the points alleged to be overed in the protest lodged against Fanny Durack's eligibility to compete n amateur swimming races in this ountry during her coming tour of

The letters are now on their way here and, according to advance word eccived on the subject, the Australian wimming authorities expect that they will be able to clear up, in a manner atisfactory to all, the Durack Mystery.

Fanny Durack, the world's greatest reman swimmer, and Minna Wyle, who accompanying her, will reach Hono-'ulu in the Sonoma from Australia next Tuesday on the way to San Francisco. Nothing Known Here

Just what is back of all this protest business is not known here and the latest mainland papers fail to throw any light on it. An Associated Press lespatch from New York to The Advertiser, printed here on Saturday norming of last week said:

"Fanny Durack and Minna Wyle, he Australian swimmer who left Island Continent last Tuesday for Amrica by way of Honolulu for a swimning tour of the United States, may be barred from competition by the A. A. J., it was announced here last night." - Whatever all this means, it now cems, according to this morning's Asociated Press despatch to The Adver tiser, that the Australian swimming officials are meeting the charges, what ver they may be, with an explanation hey believe will settle the whole
